# THE TOPIC OF THE STUDY DAYS

*In our days, society appears to be crossed by extraordinary transformations; these changes are particularly important for therapists who have among their goals to improve the relationship and communication between people who seem more connected and distant at the same time.*

*What Group Analysis and its training has to say about this?*

*The theme of the EGATIN 2020 SD “Contemporary challenge. Applied Group Analysis in Group Analytic training” reflects on these considerations.*
