

## **Advance notice of an International Workshop Group Analysis with Children and Adolescents – Frankfurt 2025**

An understanding for group analytical processes and the development of concepts for diverse settings have proven very effective when working with groups of children and adolescents, both within the therapeutic and pedagogic fields. In the past 19 years experiences in this work have been shared and evaluated at annual workshops in German-speaking Europe.

It seems timely, therefore, to create a second international forum, which can profit from the insights of even more participants from different countries. In cooperation with the Frankfurt University of Applied Sciences, the Association for Group Analysis with Children and Adolescents (GaKiju/[www.kindergruppenanalyse.de](http://www.kindergruppenanalyse.de)) we would like to invite all interested colleagues to an international workshop in Frankfurt.

The workshop will take place from Friday, September 19<sup>th</sup> till Sunday September 21<sup>th</sup> in 2025 at Nibelungen Platz 1, 60318 Frankfurt.

A lively weekend with panel discussions, group sessions, case presentations and many stimulating conversations (all in English) is in store for us. The registration link will be available as of Spring 2024.

With our best regards,

Katrin Stumptner, Carla Weber, Gerhild Ohrnberger, Furi Khabirpour
